Workshop Description: A special engagement for an evening to remember with Joe Samnik. Mr. Samnik will share his knowledge based on over 1000 litigated cases. Whether you have never been to court or been there a dozen times, this presentation will review the nuances of successful testimony. Joe Samnik has been qualified as an expert witness in federal, criminal, civil, and eminent domain courts of law. His opinions have never been stricken. The special event will take you inside the minds of jurors as they deliberate your opinions. Don't miss the only opportunity you will ever have in learning that which has yet to be published. **Act now. Seating is limited and offered on a first come, first serve basis.**

Joe Samnik Bio: Joe is entering his 56th year of practice limited to tree and landscape consulting and the dispute resolution process. He received the Edward W. Bok award for recognition of lifetime achievement in the excellence of arboriculture. Joe was the founding president of the International Society of Arboriculture (ISA), Florida Chapter and sat on the Board of Directors for six years as the Consultant's Representative and Education Chair. He has served as chair of the Nominations Committee for the past three years. He is also a past president of the Association of Eminent Domain Professionals (AEDP), and their current president. Joe is licensed through the Department of Agriculture and Consumer Services, State of Florida, to prescribe and treat pests on trees and landscapes. He has presented at over 100 International, and state conferences. His formula for appraising the value of roadside vegetation and calculating the value of forest trees providing ecological benefits are intellectually copyrighted. Joe is a recognized expert witness in small claims, civil, criminal, eminent domain and federal courts of law. He has been named as an expert in over 1,000 litigation assignments. Joe has appraised over 200 million dollars of value in litigation assignments.
